

## Moto Health Care Custom & Essential Over the Counter (OTC) benefit 2026

The benefit for pharmacist advised therapy (OTC) medication is subject to a formulary for Moto Health Care Custom and Moto Health Care Essential members. Medication must be obtained from a DSP pharmacy.

Below is the formulary from which a pharmacist can dispense treatment. Any medication not on the formulary will be for the member’s own account. Once the maximum number of scripts per family has been claimed for the year, the member is liable for any further OTC dispensing even if it is listed in the formulary.

Please note that quantity limits apply - the maximum quantity per script is reflected on the formulary.

The formulary is subject to regular review. The formulary may be changed and updated when new information becomes available, prices change or when new medicines are released.

While every effort has been made to ensure that products listed are available on the market, it is possible that some products may be discontinued by the manufacturers during the course of the year.

| Therapeutic Class | Nappi   | Product Name                  | Quantity allowed |
|-------------------|---------|-------------------------------|------------------|
| ALLERGY           | 712889  | ACUZYRT 5MG/5ML ORAL SOLN     | 100              |
| ALLERGY           | 703313  | ALLECET 5MG/5ML SYRUP         | 100              |
| ALLERGY           | 702145  | ALLERGEX 2MG/5ML SYR          | 100              |
